

*WELCOME TO THE EARLY
ASSESSMENT AND SUPPORT
ALLIANCE!
OREGON'S EARLY PSYCHOSIS
PROGRAM*

EASA Center for Excellence

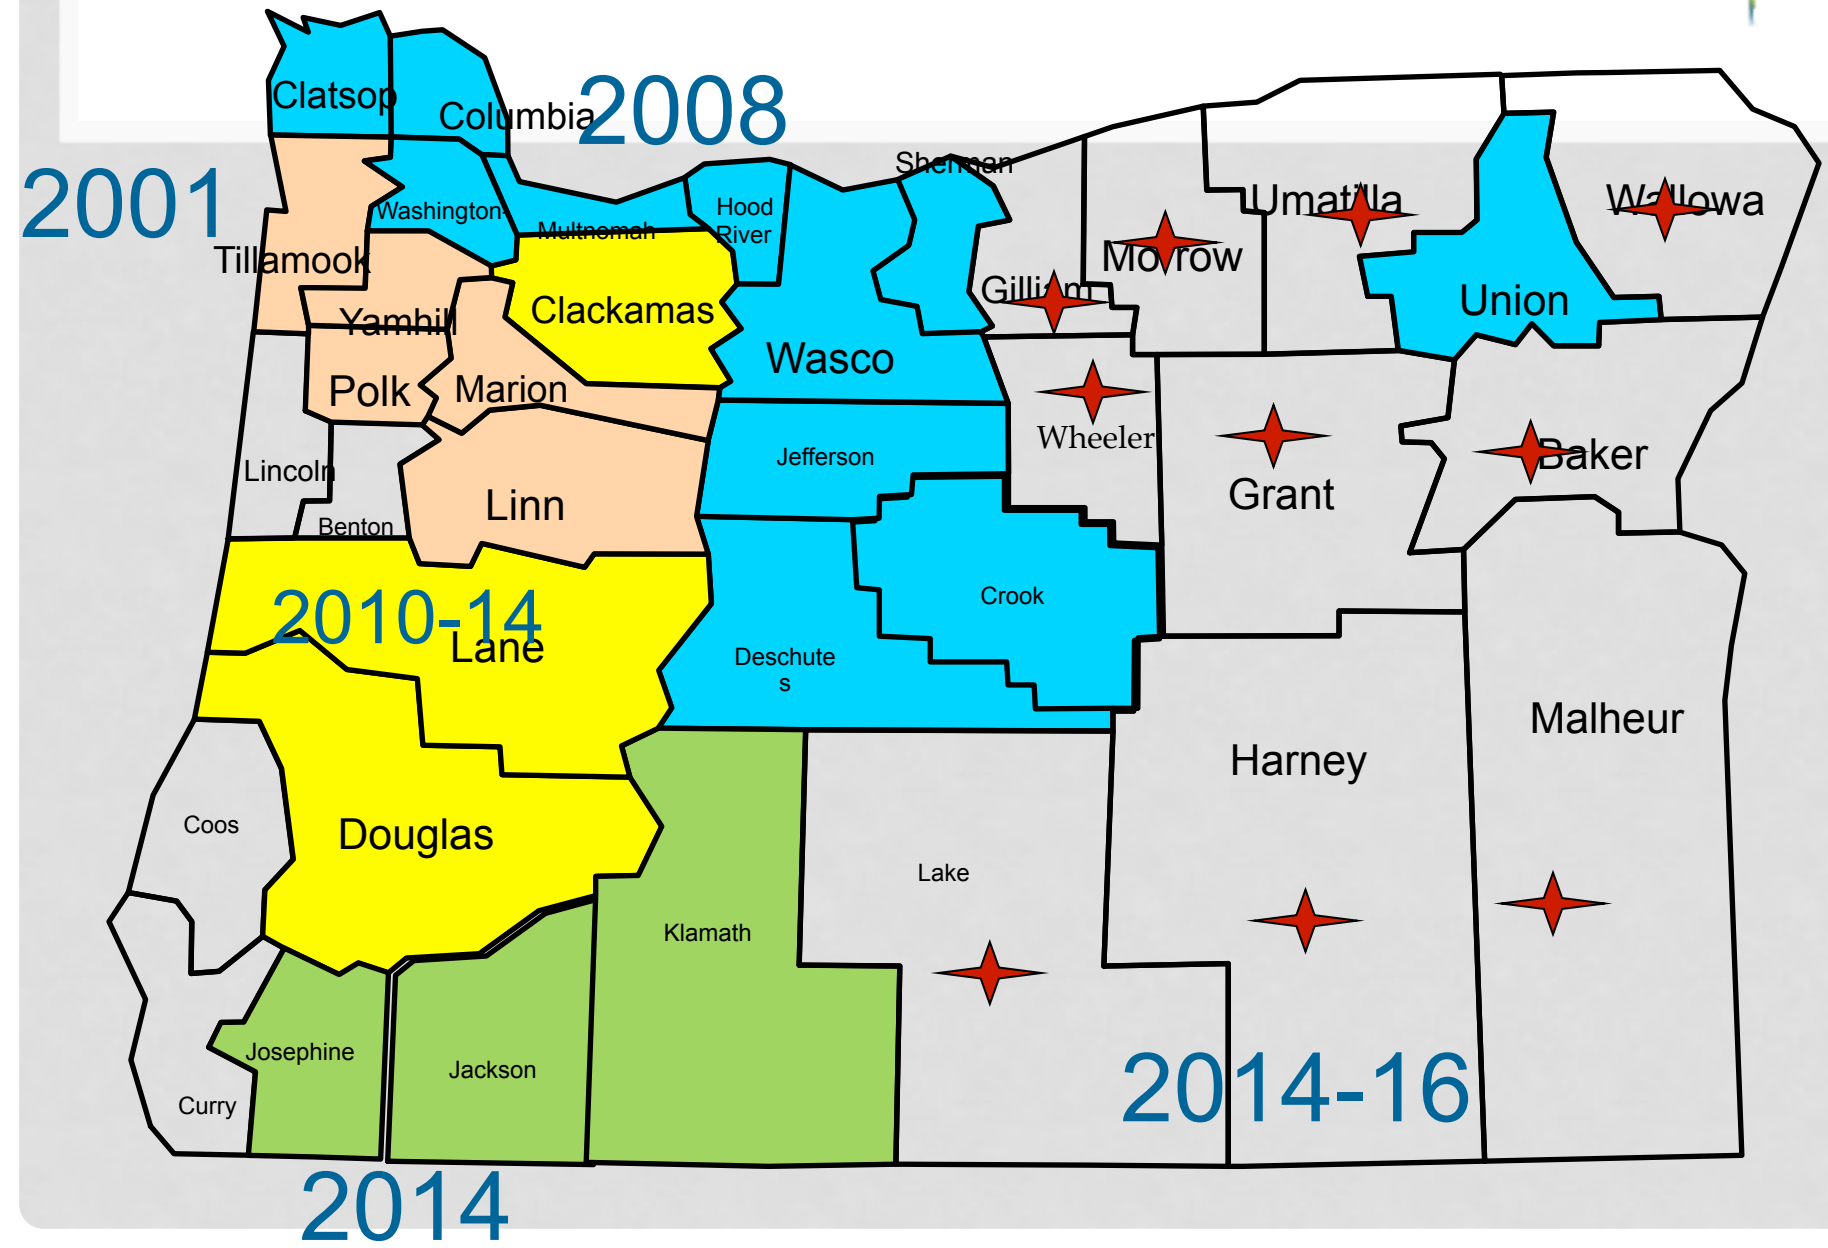

Keep young people with the early signs of psychosis on their *normal life paths*, by:

- ✓ Building community awareness and
- ✓ Offering easily accessible, effective treatment and support
 - ✓ Through a network of educated community members & highly skilled clinicians
 - ✓ Using the most current evidence-based practices

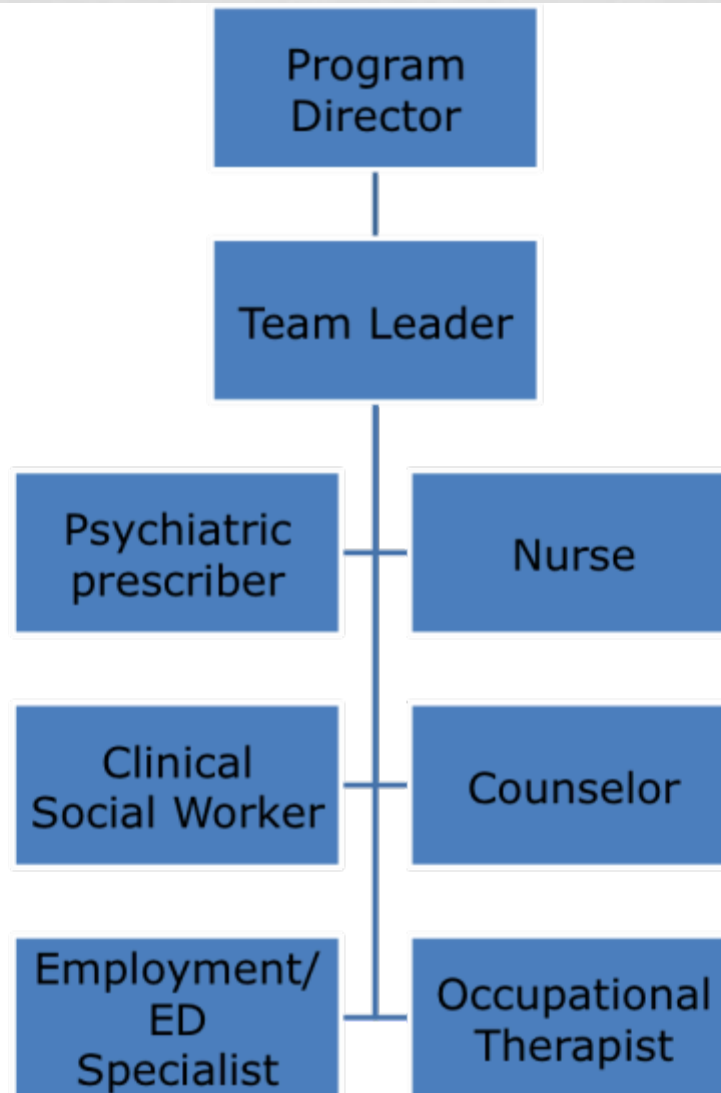

EASA Center for Excellence

Early Assessment and Support Alliance (EASA)

Trans-Disciplinary Treatment Team

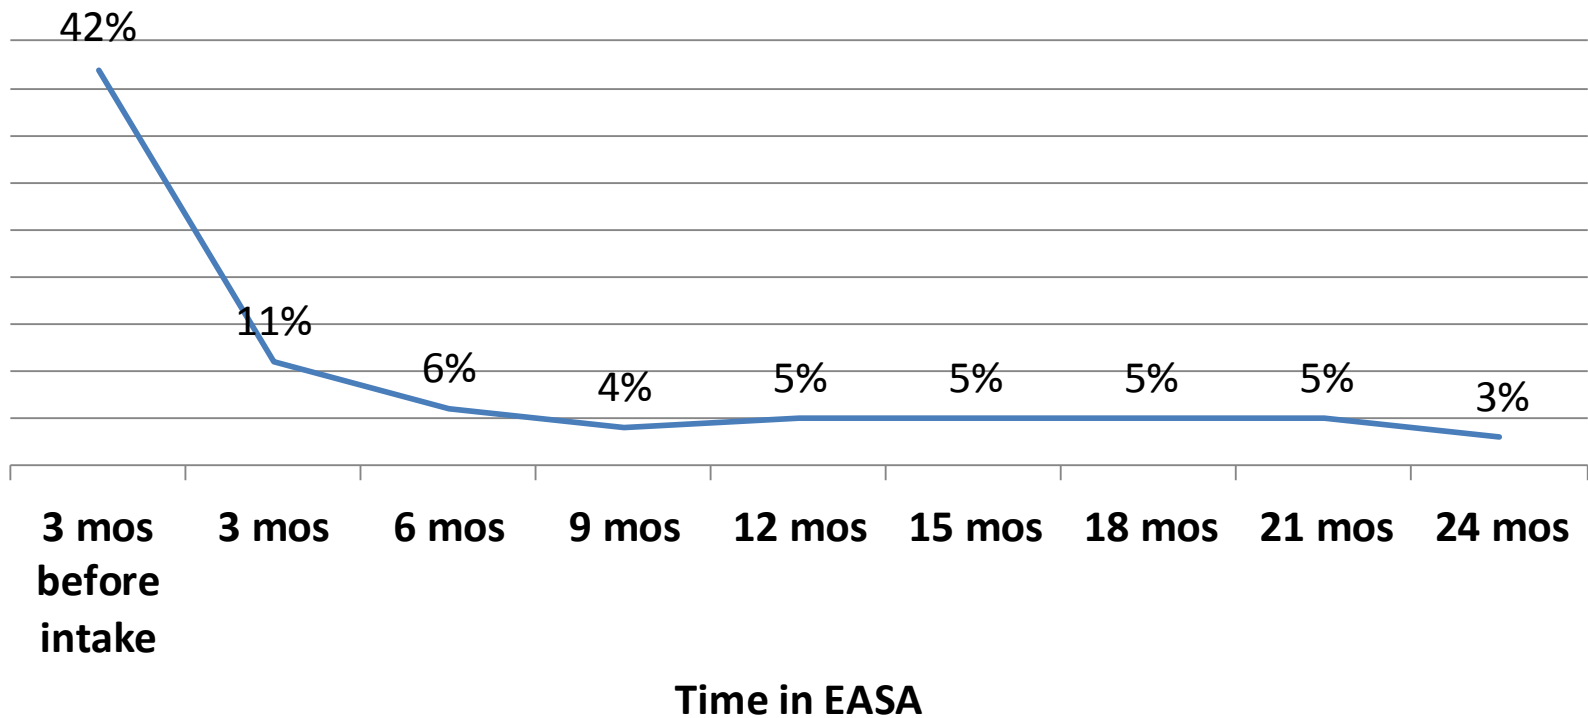

Percent in School or Working, Individuals Discharged from EASA at 12 Months or Longer (n = 522)

EASA RESULTS

Percent of EASA Participants Hospitalized

HOW DID WE DO IT??

1. Establishing a common statewide practice which can be articulated and quantified, including common minimum eligibility standards, practice guidelines and centralized collaborative decision making about core practices.
2. Building on existing EBPs to the extent possible.
3. Engaging key champions (such as county mental health directors and state directors of mental health and voc rehab in sustainability planning.
4. Tying communication efforts with legislators to Olmstead and state hospital reform.
5. Including program graduates and participants in educating funders and policy makers.
6. Creating targeted simple written communication which included data and why the program matters.
